

CASE STUDY:

Simplifying a Complex Verification Process

Businesssolver®'s ability to streamline HR processes in alignment with corporate goals provides a strategic advantage to clients. Take into consideration a manufacturing company Businesssolver has worked with to simplify its dependent verification process.

Solution

- ▶ Businesssolver acts as a centralized entity for dependent verification process
- ▶ Transactions are updated within 24 hours of receipt of documentation
- ▶ Printed letters and email notification generated with single message and employee process

Results

The organization was able to streamline its dependent verification process and create consistency with Businesssolver's help. HR administrators found hours of new time each week to focus on organizational objectives and added value company-wide.

Company Snapshot

- ▶ 1,800 employees
- ▶ 8 locations
- ▶ Performed dependent verification in-house
- ▶ Decentralized HR performing verification process
