

CASE STUDY:

Head of the Class

Education co-op partners
with Businessolver® to achieve time and cost
savings worthy of the honor roll

Take a closer look at how one pooled group was able to streamline workflow and simplify the billing and reconciliation process by partnering with Businessolver. This education co-op stopped payment leakage, prevented potential data inaccuracies, and ultimately, leaders were a bit shocked at the amount saved by our solution.

Company Snapshot

Educational Benefit
Cooperative

Onboarded more than
70+ groups to date on the
Benefitsolver® platform

Group covers **18,000+ lives**
across 94 school districts

Challenge

This group was using all paper and manual enrollment processes. Employees at each district utilized paper to choose benefit elects, and were manually entered by each district's HR Staff, resulting in huge risk and time issues. Not only was the enrollment process a hassle, but, their manual billing process and payment processes were confusing and inconsistent.

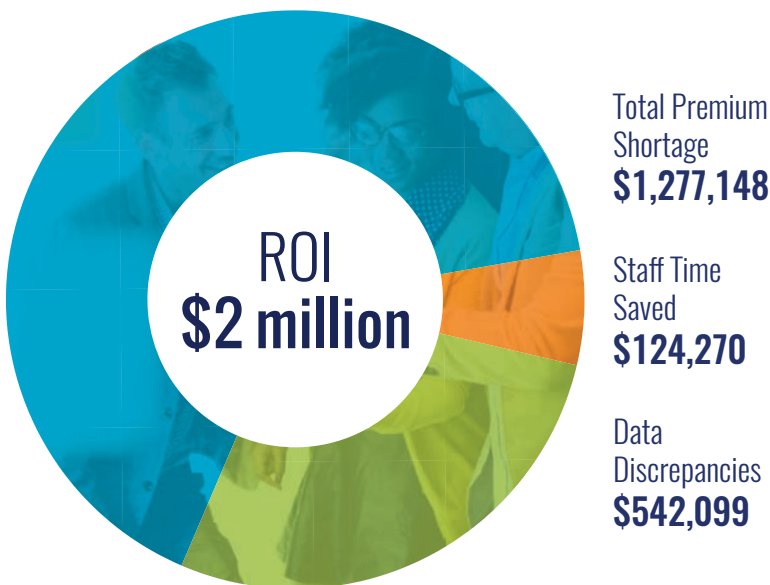

Solution

Our Billing System will automatically adjust an invoice with debits and credits based off changes to elections made on the employee record and reconcile appropriately to the specific vendor's billing rules and retro windows. Due to this automation we were able to save hundreds of administrative hours across the cooperative over the span of a year.

Results

This group experienced a total estimated annual savings of nearly \$2 million in its first year using the Benefitsolver platform.

“Typically, throughout the school year I processed changes, enrollments, and terms once a week and I had to process changes in up to six different databases for each employee. The Businessolver system has cut this time in half.”
